COLEMAN, Arthur Philemon (Chairman, Board of Graduate Studies) April 5, 1919 (007)

April 14th, 1919

Professor A. P. Coleman,

Chairman, Board of Graduate Studies,

University of Toronto.

Dear Professor Coleman:

I am told that a resolution is likely to be presented to the Board of Graduate Studies this afternoon dealing with the laying down of conditions as to the acceptance of scholarships from the Honorary Advisory Council of Scientific and Industrial Research at Ottawa. It seems to me that the conditions on which these scholarships may be accepted must be laid down by the Board of Governors and that the Governors will consult the heads of the laboratories before the acceptance of the scholarships in individual cases. In my interpretation of the constitution of the Board of Graduate Studies its work is confined to courses leading to graduate degrees and does not deal with the research that may be carried on by individuals in any one laboratory.

Yours sincerely,

President.
